

WE ARE A VOICE

Kāla'e Parish, Kalena DeLima, Tiana Kuni Yoshida

Where on earth can you find the sun
Greeted by a people who stand in unison
From the highest slopes to the ocean side
Raising our families on this land that provides
Where can you feel aloha around
It's standing beside you on this sacred ground
The clouds roll in while the waters fall
But there's too much to lose, so we'll answer the call

Chorus:

There is a voice in you and I
That travels the earth and reaches the sky
We will be heard until the last of us
We cannot lose this fight
Cause we are a voice
We are the children who have come alive
We are a voice

We have been searching to find a better way
So many people showing love will lead way
If you take what's left what else will be ours
There's only one earth and millions of stars

Bridge:

A hiki i ka hope loa (Until the last of us)
E mau ana ku'u lāhui ē (My people will persevere)
